

Exciting News!!!!

Our school has full access to IXL, an online personalized learning program, for 60 days. Here is how to access this program.

1. Go to www.ixl.com or download the free app on your ipad or tablet
2. Username is first initial, last name@lincolnschool (ex. John Smith: jsmith@lincolnschool)
3. Password is math
4. If your child is an existing user, refer to your teacher's guidance on skill areas to focus on.
5. New users can begin in two areas of choice:
 - a. Diagnostic to pinpoint specific skill levels (answer a series of 50-75 questions over a few sessions. It will save where you left off. You know levels have been identified once there are stars with numbers inside
 - b. Learning-choose skills that your teacher has recommended or those that you'd like your child to strengthen.
 - c. Once the Diagnostic identifies skills that need support, your child can find additional skills to work on, on their recommendation wall.

Questions? Email Lincoln's MTSS Coordinator and program administrator for assistance- mrfein@cps.edu
